Music in Carrot. Pars.-The following is the programme of music to be furnished by Shelton's Band, this (Saturday) p. m., at 5 o'clock, in Carroll

Park:

1. Hall Columbia. 2. Oft in the Stilly Night. 3. Child of the Regiment—Mirch and Air. 4. Hall to the Chief. 5. Anid Lang Syne. 6. Yankee Doodle. 7. Trevatore—Auvil Cherns—Gipty Syne. 6. Old Virginia. 9. Prims Bonna Waltz. 10. Pop goes Bong. 2. Old Virginia. 9. Prims Bonna Waltz. 10. Pop goes been at the Wessel. 11. Belle Brandon. 12. Katy-did Polks. 14. House, Sweet Home.

Full arrangements have been perfected by the Committee to render these cencerts worthy of the Park and its neighborhood. Carroll Park is on the hae of the Greenwood care, and is easily reached from

Excunsion .- The lady occupants of the Old Ludies Home, in Washington Evenue, enjoyed an excursion to Sheepshead Bay, on Thursday. They numbered about forty, filling three stages. From all appearances, they passed a pleasant time.

ARREST ON SUSTICION OF BURGLARY,—Two men, and Jones Feters and Thomas Bures, were arrested in Montro-place by Officer Welliams, on Thursday night, on asspicion of being burglars. On searching them, several articles which had been stolen from the bouse of Mrs. Fisher, No. 65 Romsen threet, were found. The accused were brought before Justice Cornwell, yesterday afternoon, and committed until Tuesday for examination.

Highway Robbert, —On Tuesday night last a himr samed Charles Schenck, ir., of Hempstead, was stopped on the Myrtic avenue plank tood by two men, one of whom sobbed him of a small amount of money and a sliver watch. They eaformed their demands by a pictod, with which they threatened to kill him if he resisted.

#### NEW-JERSEY ITEMS.

The Trenton True Democrat cays:

"T. would be useless to attempt concealment of our gratification at the nomination of Gen. Wright, as the Democratic nomines for Governor. We regard thin as a representative man of the Lecungton party in this State; an open admirer of James Bachanan and his administration; the defender of ex-Senator Wright's Sanstraid course, and the only man who was enabled to hold a county in the last Legislature favorable to the reelection of the a-Senator.

accounty in the last Legislature favorable to the reelection of the ex-Senator.

"We have no desire to be unjust to the General, or under estimate his personal popularity. In Hadson, Essex and Passalo, he will pole a large floating vote, receiving the undivided support of the higher large floating vote, receiving the undivided support of the higher desires, prize fighters, and 'roughs,' generally, to be is of accions one of that class. They will bring a powerful influence to bear on his election, which cannot be despised by his opposente, though a united Opposition need have no fear of the result, in meeting him on his own grounds.

"The General's moral character will not bear inspection, and lein this slone which has prevented his nomination before, by his garty as their standard-bearer. His participation in a discraceful griss figat only a few years since; his every discourse, his bencharalian reveiries, are all matters of hiscory, and, his opponents will not less the opportunity of using thom as arguments against him. In the lat Congressional bistrict he will be beaten by 2,500 votes, and in the 11d by at least 4,500 and probably 2,000. Billy Wright, who has been the most ective supporter he has had for the nonmanton, will use his pure diberally to corrupt the Vth District, and his vote there may exceed Wortendyke's last Fail, and he cannot carry the District. His rescally charges against Gov. Penningson, made publicly in the Park, at Newark, last Fail, to the effect that Pennington had subbed the State of ±20,000, will operate seriously against him among respectable citizens."

-Mr. J. H. Fraze has temporarily resumed the charge of The Somerset Whig, in Somerville, New-Jersey, its late editor having eloped with his sister-inlaw and gone to California, leaving a wife and two children. The parties had been much respected. The name of the eloping editor is Van Doren, some 35 years old, and, as intimated above, is married. The lady is some 22 years old, and is said to be beautifal. An intimacy is supposed to have existed between them for some time. They have fled to California. Van Doren left a letter to his wife, saying that he had provided for her wants for some time to come, and would make remittances.

NEW-JERSEY STATE FAIR .- Arrangements for the State Fair at Elizabeth are now completed. The race-course is the best ever constructed in the State. By an enactment of the last Legislature, special police authority is granted the Society, outside as well as inside the inclosure, and no gambling, rum-drisking, or other improper practices, will be allowed in the vicinity. To guard against these evils, the Society bave determined to lease all the ground in the vicinity that could be occupied by traveling show nuisance The grounds are located some two miles from the Elizabeth depot, and command a fine view of the bay.

REPUBLICAN PRIMARIES. - The Republican Primary meetings in Hudson County, to elect delegates to the State Convention, are to take place in the various wards and townships on Monday evening next.

ARREST OF SUNDAY LIQUOR DEALERS .- Five per-

MAYHEM.—Yesterday, Michael Flynn got his lower p bitten off in a fight with James Bowen, in First street. His ounds were dressed, and both locked up.

DEATH AT A FUNERAL.—On Thursday afternoon, the wife of John F. Klein, residing at Trenton, attended the funeral of a deceased relative (Mr. Samuel Philips). Shortly after arriving at the honce, she was sched with an apoplectic fit, which caused her death in less than two hours afterward.

# FROM BUENOS AYRES.

By an arrival at this port we have papers from Buenos Ayres to June 28, one day later than advices received via England.

No outbreak had yet taken place between the forces of Urquiza and the Province of Buenos Avres. Urquiza's troops at Rosario in the Province of Santa Fé, were in a very discontented condition, and desertions to Buenos Ayres were frequent.

Gen. Zapiola, the Chief Admiral in the Buenos Avres Navy, had resigned on account of age and infirmities. A younger man would take his place. The Argentine Congress had issued a manifesto, addressed to the Thirteen Provinces, recapitulating the causes of the present quarrel, and quoting largely from Urquiza's personal proclamation, published some time since. The Congressmen say that their only object is to keep the rich jewel, Buenes Ayres, from being tern by rude and thieving hands from the glorious diedem of the nation. They give notice that the Presidential election will shortly take place, and hold out, as an inducement to the Buenes Ayrians, that if they will quietly rejoin the Confederation, they may have a hand in choosing the second President of the nation. The Buenos Ayres papers publish the manifesto in full, and, at the same time, comment on their own plan of proceedings, which is to finish Urquiza in one decisive battle, as Rosas was finished at Monte

SNARE KILLED IN BROOME STREET,-Yesterday afternoon, Mr. James Carroll killed a black snake, which was about five feet in length, in the yard of the Broadway House in Broome street. Mr. Carroll was looking out of one of the rear windows, when he discovered the snake, and forthwith started out to capture it if possible. The snake showed fight, and Mr. C. was obliged to kill the reptile in self-defense. How the snake came in the yard, or where it came from, could not be accertained, but it is supposed to have escaped from some one of the neighboring houses. where it was probably kept as a curiosity. The body of the reptile was about as large round as a hen's

FIRE IN CLARKSON STREET .- A fire occurred at No 18 Clarkson etreet, yesterday afternoon, causing about \$18 damage to the roof. The fire originated from sparks from a neighbories chimney.

-We have been favored with the following an-

bouncement: "The period has arrived when the American people required, independent and transfel and a "The period has served when the American people requires bold, independent and trathful daily journal, whose editor will not sell himself to any certally power. Semest and Greeley started The Herald and Tassays, with \$4.00, but Raymond of The Times had the Harpers and Wall street "Bankers to hack him." And now, after a life of penury, and a residence in the Penitentiary, a gentleman of great wealth and generosity proposes to apply me with the means to establish a feerless daily newspaper, and that he will risk one-fifth of his fortune (he is worth half a unillion) in the creation of my journal, on an enduring basis. I have accepted his magnanimous proposition, and the limit the hist minder on the first of September.

"When the featners will fly

To the pretty sky."

The main points of the California news have been anticipated by telegraph.

Dates are from Valparaiso to the 15th, Callao to

26th July, and from Guayaqui to the 1st inst., but

there is no news specially noteworthy.

Dates from Nicaragua are to July 30. Congres met in extraordinary session on the 21st. The American treaty passed the Senate on the 22d, and the Chamber of Deputies on the 25th, and the Lamar-Zeledon cenvention, as modified by the United States, is now confirmed. It experienced no opposition, as every one was anxious to see the question between the two Governments settled. The British treaty, the ratification of which by her Majesty's Government is made subject to the acceptance of the Mosquito Convention, as proposed by England (that is, the Dallas-Clarendon Convention), will propably not be accepted. There does not appear to exist much interest as to whether a treaty is or is not concluded with England.

Gen. Jerez's transit arrangement will not be considered by Congress, as it confers a monopoly which is contrary to the law of May last.

Congress has passed a law that all sons of Englishmen born in Nicaragua shall be free from military service, and be allowed a substitute.

Our files of the Cronica de Costa Rica are from 2d to 27th of July. A number of decrees issued by Congress and confirmed by the President are published. By one dated June 30 the extraordinary session of Congress is to be continued as long as any business remains to be done; another on the 27th "approves in all its parts the forms, suppression and additions made by the Legislature of the Republic of Nicaragua to the Belly Convention."

ditional to treaty), made in Washington between Count | ings of stock were erough in excess of the demand Sattiges and Sr. Molina on the part of the French and to give a hesitating appearance to the market. Soon Costa Rica Governments.

Costa Rica Governments.

Passengers.

From San Francisco.—Capt J G B Islamo, H. Garlton and lady, the Rev. Dr. Turall, lady and family; Mass C. H. Hawts, the Rev. W. H. Hill and wife, Mrs. Teaker and family, Mrs. Capt. Costlin, D. Norross, Miss Wilde, W. F. Storey and lady, Dr. J. F. Hammotd, V. Lerroy, Lieut. Rausom, Lieut. Hill, S. A.; Leeb Macey, lady and child, Mrs. Locke and wife, Major J. P. Andrews, U. S. A., lady and two infants, C. Miller, Thes. Wilson, Mrs. D. W. Miller, Capt. L. L. Baket, Mrs. J. Styr, mother and child, Capt. Freeman, lady and infant; Mrs. Galloway and girl, J. G. Tharber and lady, R. Maffit, Mrs. Hogs, Mrs. C. H. Parker and child, the Rev. J. Jeans and two daughters, J. P. Husten, Mrs. Langer, D. Byers, W. S. Cavansugh, B. F. Ames, W. L. Gibson, J. W. Gibson, J. S. Gibson, Mrs. P. W. Thomas, daughter and two children, J. W. Morrison, H. W. Favise, C. H. Passen, W. F. Noteross, D. D. Sill, J. W. Johnson, H. D. Smith, G. W. Hallett, Mrs. J. G. Dayls and infant, J. G. Hughes, Miss Jane A, Holman, Miss C. Sandford, Miss Whiley, L. Whitengham.

FRIDAY, Aug. 26-P. M.

Early transactions at the Stock Board were marked by a fair degree of steadiness, but after passing New-York Central the market appeared somewhat unsettled again, and prices for the remain der of the session had a slightly downward ten-dency. For two days appearances have favored the anticipation of a reaction, and many of the operators of the Board have shaped their movements accordingly; but notwithstanding the sales of parties who have been realizing profits, and a moderate demon-stration on the part of the bears, there has as yet been no escential check to the upward course of the market. This morning there was an increase of time orders at the Board, apparently from outsiders A decree of June 15 confirms the Convention (sd- but they were filled without difficulty, and the offermovement for the rise in the street, and before the Second Board commenced its session, prices for one or two of the leading stocks, such as New-York Central, Galena, and Rock Island, had nearly rallied to the starting point of the morning. The most prominent movement of the day was in Pacific Mail, which, from 794 in the morning, went up to 811 in the afternoop, and was afterward sold as high as 821. The purchases are supposed to be for short account, as it is known that quite a large number of contracts mature about this time. There is an impression, also, that the opposition line of Commodore Vaderbilt is to be withdrawn from active competition via the Panama route, but upon what grounds this anticipation is founded we are not informed. The most important transactions at both Boards were in New-York Central, which seems to attract the largest share of attention from speculators, both outside and inside of the Stock Exchange. The variation during the whole day, in dealings embracing an aggregate of more than 6,000 shares, was but | 4" cent, closing at 74 in the afternoon. A leading bear is understood to have taken in 4,000 shares pri vately within a day or two. Reading was sold at 44 on the first call, but was a fraction better afterward. This stock does not seem to be a favorite for speculation, notwithstanding its ancient prestige as one of the favorite fancies of the market, and the efforts which have been made for some time to bring it into life again. The efforts now making to open s new line, as a compelitor for the coal traffic, may possibly have had some effect, also, within a few days. The Western shares were generally about | percent lower, and were all less active than yesterday. Southern Guaranteed sold down to 24 on a small lot, but was rallied up to 24] again after the adjournment. Galena, fell off 2 per cent, and Rock declined to 645, but bota were better again at the second Board. The dealings in State Stocks were to a moderate extent, and the market was without essential change. At the Second Board the market was firmer and better for a majority of the active shares, and closed steady. though not very active. Michigan Southern 2d mortgage bonds sold at 45, and Erie 4th mortgages were a fraction lower. The closing prices were: For Tennessee 6s, 86] @ 86]; Virginia 6s, 92] @ 93; Missouri 6s, 82] @ 82]; Canton Company, 17] @ 18; Delaware and Hudson Canal, 11: Cumberland Coal Company, 141 @ 15; Pacific Mail Steamship Company, 82] #821; New-York Central Railroad, 73 | #74; Erie Railroad, 5 | # 5 |; Hudson River Railroad, 32 | #33; Harlem Railroad, 97 a 101: Harlem Railroad, Preferred, 36 g 361; Reading Railroad, 419441; Michigan Central Rail road, 44] @44]; Michigan Southern and Northern Indiana Railroad, 61 27; Michigan Southern and North-

e drafts of the Peninsular Bank of Detroit, The Daily Tribune of that city save:

Daily Tribune of that city says:

This report is calculated to do great injustice to the "Peninsular Bank of Detroit." That some of its drafts were protested is not devised; but we know that that circumstance was not the fault of the Peninsular Bank, nor should it result to its injury in any way. That bank is no more morally responsible for the circumstance than the man in the moon. It had made, as it will continue to make, ample provision for its paper in New-York, as it has done, and will do, here and elsewhere; and it was put the fault of the hank here that New-York, as it has done, and will do, here and elsewhere; and it was not the fault of the bank here that there was any protest at all. We have seen a telegraphic dispatch from its New-York correspondent, to-day, stating that its drafts had been paid; and we are well satisfied that everything that honor, ability or credit can do, has been, and will be, done by the Peninsular Bank to maintain an enviable credit at home and abroad. We wish wire stitutions in Michigan. We wish we had twenty other as good

The Cincinnati Gazette, Aug. 24, give the follow-

ing review of the produce markets: ing review of the produce markets:

IThe produce markets have undersone a very material and highly satisfactory change since the date of our last weekly review. At that date all the markets of the country were dull and sleggish for the leading snaples. This state of things has given place to a fair degree of activity, which has been followed by a material advance in prices. On last Tuesday we wrote that in all probability New York operators, who were at that time in anticipation of large suppiles of wheat and flour from the new crop, crowding prices down, notwithstanding the law points already reached, would have occasion, before the opening of the Fall trade, to revise their opinious. We now find that their views have already been reversed, and within the last three days prices of flour have advanced 30c, § bbl., and wheat in about the same proportion, and the demand fooding was quite active, the sales of oportion, and the demand to-day was quite active, the sales of former reaching 16,000 bbls. This is attributable to reduced che and light receipts. There is no to eign temand, and there is only a bare possibility

Stocks and light receipts.

There is no fiveign demand, and there is only a bare possibility of Europe needing breadstuffs at moderately lower prices, in the event of only a fair harvest in England and deficient crops in France. But, as we have said, the movements in New-York at present are influenced would by the local causes already influenced. Our market has also improved, but the edvanced in prices is not equal to that established in New-York, for the simple and very mod reason that it is still, as it has been for some time past, above a shipping point. The advance, as compared with last Thesday, may be called 100 150. P both in Flour, and 200 to 150 the firm moder the favorable sivines from the East, but buyers moved caustionally, manifesting a determination to await an equalization of prices between this market and the seaboard. The prices now compare about as follows:

Price in Circinnati. \$4.75

Freight.

Margin on the wrote side.

One has also reacted in New York, and prices have advanced in \$1.50 from the lowest point, clusing at \$11.750 \$11.50 for so. The late decline simulated consumption, and it is boved that stocks on the lat of September, will show a considerate returning. Southern see bord decires have been buging likely in New York for a week or ten days. Our market, inflaced by whose similar to those which govern the floor make, and to yet so not show any material improvement in prices, but there is a chiefly strenge feeling, with a tendency in favor of sellers, this was an exception, most of the business, which was flesh, were, having been transacted at \$14.256 \$14.256 \$14.70, and at close leaves firm, at the outside rate, for round lots.

The Philadelphia Butletin of last evening publishes a circular from the managers of the Williamsport and Elmira Railroad, giving an account of the em ments of the Company, and proposing a plan for their

means of the Company, and proposing a plan relief as follows: We propose to sak the first mortgage bondholders to fond their compose for two years, say including Jan-usty, 1961-and that they should receive for the same six \$\psi\$ cent roads of the Company, secured as follows, on which interest should be paid semi-summary as the commercing with January 1, 1950— for far acdor. This, with the scrip already received for 1830 coupons, would amount to two honder! animaly as the, commencing with January 1, 1950
—so far adone. This, with the scrip already received
for 1850 compons, would amount to two hundred
thousand dollars, and in the new mortgage to be
drawn would be first eccured.

That the chattel bundholders should receive in air p
cent bends secured, under above mortgage, on the
real estate, and under a first mortgage on the cleat
tels, as at present, eventy p octs of their bonds,
row five hundred thousand dollars, bearing interest
from April, 1961—interest, and balance of principal,
its a preferred stock.

That the seconds, now seven hundred thousand dollars,
associatives exist per cent bonds for fifty per cent, to
be lismed innor above mortgage, bearing interest
rown April 1, 1961, payable semi-animally—interest
with balance of principal in a preferred stock.

That the net innouse of the road, for two years, be applied to the extinguishment of the floating indebtedtess of the Company, which, with the collaterals released and the remaining one hundred thousand
dollars of the million bonds now proposed to be
issued, would, it is estimated, entirely discharge
this finching debt; any decidency, however, to be
liquidated proportionately in a preferred stock.

Total.

Common a stock, now \$1,000,000, to be reduced one third 1,000,000

It will thus be seen that the total capital of the 108d, following the world be less than \$50,000 per mile; of Tinth about \$25,000 per mile would be represented in mortgage debt, shall be remained in total. So soon as the reviving business of the country should enable the read to pay more than the Interest on its intellectures, the the preferred story bulgets around

So soon as the reviving business of the country ahould enable the read to pay more than the interest on its indebtedness, the the preferred stockholders would realize it. And the value of the common stock of the Company would, as reconstructed under the above arras someat, undomatedly be greater than it can possibly be, while in comberted with as great a load of floating debt as has always rested over it.

This plan, which has been prepared after great deliberation, and on consultation with an under of the parties largely interested, appears to the unsuadry the only course which can save the Company from the disastrass results of litigation and nitimate foreclosure.
